

Assignment-3

1.Create a Bucket in IBM object storage.

2.Upload an 5 images to ibm object storage and make it public. write html code to displaying all the 5 images.

<html>

<head>

<title>

images

</title>

</head>

<body>

<h1>

cloud object storage</h1><center>

**
**

**
**

</center>

<h1>

cloud Application Development</h1>

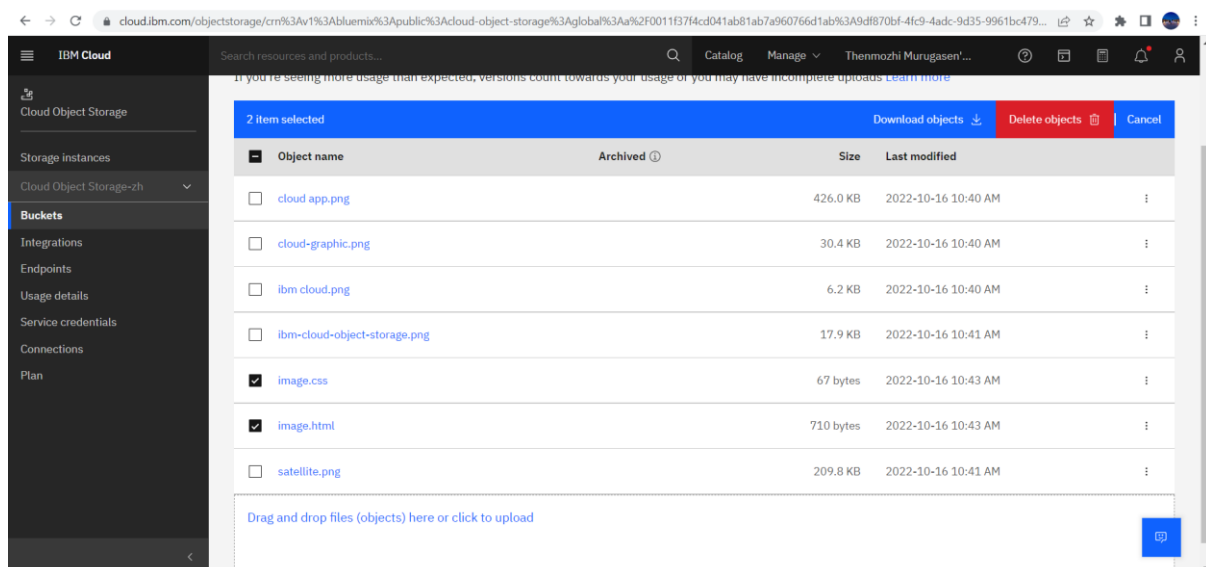

<center>

</center>

</body>

</html>

3.Upload a css page to the object storage and use the same page in your HTML code.

4.Design a chatbot using IBM Watson assistant for hospital. Ex: User comes with query to know the branches for that hospital in your city. Submit the web URL of that chat bot as a assignment.

The image displays two screenshots of the IBM Watson Assistant interface, showing the configuration and preview of a chatbot for a hospital.

Top Screenshot: The interface shows the "Greet customer" action. The "Conversation steps" section lists four steps:

- Step 1: "welcome!!!" with input options "hi" and "hello".
- Step 2: "how can i help you" with input options "may i know h..." and "is there avail...".
- Step 3: "please share your location" with input options "bangalore" and "chennai".
- Step 4: "yup o is available 24/7".

The "Action starts" section indicates that no training examples are necessary and that the default greeting or customization can be used.

Bottom Screenshot: The interface shows the "Preview" section. The chatbot's response is displayed, showing the conversation flow and the final output: "Five branches available".

web URL of that chat bot:

5. Create Watson assistant service with 10 steps and use 3 conditions in it. Load that script in HTML page.

The screenshot shows the IBM Watson Assistant configuration interface. On the left, a list of steps is visible, with step 10 highlighted. Step 10 is titled "yes!! Available" and has a condition "is there avail...". The main area shows the configuration for step 10, which is "without conditions". The "Assistant says" section contains the text "yes!! Available". The "And then" section has a "Continue to next step" action. On the right, a "Preview" window shows a chat conversation. The chat starts with "Greet customer [default]" and "welcome!!!". The user says "hi" and "hello". The assistant responds with "hi". The user asks "how can i help you". The assistant responds with "may i know how many branches in the city" and "is there available 24/7?". The user asks "may i know how many branches in the city". The assistant responds with "please share your location".
